

# Reflect on Your Readiness

This module supported developing skills and competency in the following areas:

- explaining how IT professionals use ethical decision-making to address ethical challenges related to data privacy
- determining where sources of data accuracy threats exist
- determining where the sources of major institutional threats to data privacy exist
- determining where the sources of data access threats exist in information technology
- determining where sources of global-level threats to data accuracy exist
- explaining how IT professionals deal with the ethical challenges related to data property

Ask yourself how capable you are of doing each task presented in Modules 5–7 in preparation for assessment. If you feel confident, then move to the next section. If you need more opportunity to explore the topic, try one or more of these strategies:

- Review content related to the topic. Some courses have an optional resource section with additional materials and activities.
- Use available activities provided in the learning resources.
- Identify the topics in the section that are challenging to you and make an appointment to speak with your instructor.
